

Perfection, Nevada — Main Street

Town only. Main Street runs north–south: Nestor at the north end, Chang’s on the west side with the water tower beside it, the yard and the Bixby Road to the south. The valley (cliffs, Edgar’s pylon, Old Fred’s, the aqueduct, the pole-vault rocks) is the Phase 2 fold-out.

WHAT THIS IS

The playable Phase 1 board: fourteen town nodes. Outlying film locations arrive as calamity news (the dead sheep, Edgar) instead of map spaces, and return as terrain in Phase 2.

SECTORS (UNDERGROUND)

- A North Range
- B Town Centre
- C West Compound
- D East Flats
- E South Yard

NODE TYPES

- Building** — protects until Compromised / Unsafe.
- Tower** — cannot be grabbed.
- Metal** — louder.
- Open / road** — exposed.

HOW TO READ A NODE

Name on top. Under the circle: sector · type · Search rating. Graboids hunt by sector and surface on the loudest node in that sector.
