

# Perfection, Nevada

North is the cliffs. South is the Bixby Road. This is not a separate valley fold-out — it is the playable Phase 1 board.

## WHAT THIS IS

One node-and-route map. Town buildings sit in the middle. Film valley landmarks (Edgar's pylon, Old Fred's, the aqueduct, the Cat, the Bixby Road, the north cliffs) are compressed onto the same graph so the simulated balance is unchanged.

## SECTORS (UNDERGROUND)

- A North Range
- B Town Centre
- C West Compound
- D East Flats
- E South Yard

## NODE TYPES

- Building** — protects until Compromised / Unsafe.
- Tower** — cannot be grabbed.
- Metal** — louder.
- Open / road** — exposed.

## HOW TO READ A NODE

Name on top. Under the circle: sector · type · Search rating. Graboids hunt by sector and surface on the loudest node in that sector.
